EXPERIENCE

Ghana Ports & Harbor Authority (IT Intern)

- Provided IT support, resolving hardware and software issues across departments.

- Assisted in managing organization-wide network infrastructure and surveillance systems

- Administered access control systems for staff and visitors using a web-client enterprise software

Fiverr (Freelance Software Dev)   *2021 - Present*

- Developed a MERN stack admin dashboard for a Dubai-based home electronics company, streamlining supply chain management and project tracking.

- Collaborated to develop a full-stack e-commerce platform using React and Django, integrating Stripe for secure payment processing.

PROJECTS

- Developed Hostel-Radar, a student accommodation web app built with Next.js & Firebase, designed to help hostel businesses streamline and manage student housing process efficiently.

- Developed a general-purpose AI chat-bot (SumurAI) powered by Deepseek R1 LLM from the Huggingface library.

- Developed a real-time production monitoring dashboard using SolidJS & Supabase for Bomarts: a dry-fruit processing company.

- Developed a university management web-app integrating role-specific dashboards for stakeholders, to streamline academic operations (Course management & Timetable creation).
